Subject of Procurement:

**Procurement Reference
Number: KOTI 528/**

Procurement Method: Open Domestic Bidding

Date of Issue: 26th August 2021

PREFACE

This Standard Bidding Document (SBD) has been prepared by the Public Procurement and Disposal of Public Assets Authority (PPDA) for use by Procuring and Disposing Entities (PDEs) for the procurement of Works. The procedures and practices presented in this SBD have been developed to reflect the requirements of the Public Procurement and Disposal of Assets Act, 2003, the Public Procurement and Disposal of Assets Regulations, 2014, The Local Governments (Public Procurement and Disposal of Public Assets) Regulations, 2006 and best international procurement practices.

1. This SBD for the Procurement of Works is suitable for use under the Open (International or Domestic) Bidding procurement method without following pre-qualification. Pre-qualification is not envisaged for small and medium works that is works whose value is less than USD 10 Million. It is also suitable for the Restricted (International or Domestic) Bidding procurement method. The SBD may also be used for procurement under the Direct Procurement method with appropriate modifications to the document.
2. For procurements under the Quotation Method, a simpler SBD has been developed which is generally more appropriate for this method.
3. This SBD is suitable for ad measurement and lump-sum works contracts. This SBD can also be used for framework contracts with appropriate modifications to the documents. The User Guide to this SBD indicates the circumstances in which its use is most appropriate.
4. This SBD includes wording for Technical Compliance Selection (TCS) as the required evaluation methodology for works (except for design and build contracts for which this SBD would not be suitable).
5. Before using this SBD, the user should be familiar with the PPDA Act and Regulations and should read the User Guide to this SBD which has been prepared to provide guidance on the correct use of the Standard Bidding Document (SBD) for Works as a model for preparing an individual Bidding Document.

PPDA welcomes any feedback or comments from the users of this SBD which will assist in improving this document.

The name and procurement reference number of the Contract and number of lots in this Bidding Document are provided in the BDS. The Instructions to Bidders (ITB) should be read in conjunction with the BDS.
- 1.2 The successful Bidder will be expected to complete the Works by the Intended Completion Date specified in the Special Conditions of Contract (SCC).
- 1.3 Throughout this Bidding Document:
 - (a) the “Employer” means the procuring and disposing entity; and
 - (b) the “Contractor” means the provider.
- 1.4 Procurement will be undertaken in compliance with the Public Procurement and Disposal of Public Assets Act, 2003 & Regulations, 2014 and The Local Governments (Public Procurement and Disposal of Public Assets) Regulations, 2006

2. Source of Funds

- 2.1 The Employer has an approved budget from Government funds towards the cost of the procurement named in the BDS. The Employer intends to use these funds to place a contract for which this Bidding Document is issued.
- 2.2 Payments will be made directly by the Employer and will be subject in all respects to the terms and conditions of the resulting contract placed by the Employer.

3. Corrupt Practices

- 3.1 It is the Government of Uganda’s policy to require that Employers, as well as Bidders and Contractors, observe the highest standards of ethics during procurement and the execution of contracts. In pursuit of this policy, the Government of Uganda;
 - (a) defines, for the purposes of this provision, the terms set forth below as follows:
 1. “corrupt practice” means the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value, to influence the action of a public official in the procurement process or in contract execution;
 2. “fraudulent practice” is any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to obtain a financial or other benefit or to avoid an obligation;
 3. “collusive practice” is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;
 4. “coercive practice” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;

recommended for award has engaged in corrupt or fraudulent practices in competing for the Contract; and

- (c) will suspend a Contractor from engaging in any public procurement proceeding for a stated period of time, if it at any time determines that the Contractor has engaged in corrupt or fraudulent practices in competing for, or in executing, a Government contract.

3.2 Furthermore, Bidders shall be aware of the provision stated in ITB Sub-Clause 23.2 and ITB Sub-Clause 59.2(h) of the General Conditions of Contract (GCC).

3.3 In pursuit of the policy defined in ITB Sub-Clause 3.1, the Employer may terminate a contract for Works, or be ordered by the Public Procurement and Disposal of Public Assets Appeals Tribunal to cancel a contract, if it at any time determines that corrupt or fraudulent practices were engaged in by representatives of the Employer or of a Bidder or Contractor during the procurement or the execution of that contract.

3.4 In pursuit of the policy defined in ITB Sub-Clause 3.1, the Government of Uganda requires representatives of both the Employer and of Bidders and Contractors to adhere to the relevant codes of ethical conduct. The Code of Ethical Conduct for Bidders and Providers as provided in the bidding forms shall be signed by the Bidder and submitted together with the other bidding forms.

3.5 In pursuit of the policy defined in Sub-clause 3.1, the Government of Uganda shall suspend a provider from engaging in any public procurement or disposal process for a period determined by the Authority, where the provider is debarred from the procurement processes of an international agency of which Uganda is a member.

27. Clarification of Bids

- 27.1 To assist in the examination, evaluation, comparison and post-qualification of the bids, the Employer may, at its discretion, ask any Bidder for a clarification of its Bid, including breakdowns of unit rates or prices. Any clarification submitted by a Bidder that is not in response to a request by the Employer shall not be considered. The Employer’s request for clarification and the response shall be in writing. 35. Determination of Best Evaluated Bid(s)

35.1 The Employer shall compare all substantially compliant and responsive bids to determine the best evaluated bid or bids, in accordance with Section 3, Evaluation Methodology and Criteria.

36. Post-qualification evaluation

36.1 The Employer shall determine to its satisfaction whether the Bidder that is selected as having submitted the best evaluated bid is qualified to perform the Contract satisfactorily.

36.2 The determination shall be based upon an examination of the documentary evidence of the Bidder's qualifications submitted by the Bidder, pursuant to ITB Clause 5, to clarifications in accordance with ITB Clause 27 and the qualification criteria indicated in Section 3, Evaluation Methodology and Criteria. Factors not included in Section 3 shall not be used in the evaluation of the Bidder's qualification.

36.3 An affirmative determination shall be a prerequisite for award of the Contract to the Bidder. A negative determination shall result in disqualification of the bid, in which event the Employer shall proceed to the next best evaluated bid to make a similar determination of that Bidder's capabilities to perform satisfactorily.

36.4 If pre-qualification has been conducted, no post-qualification will be conducted but pre-qualification shall be verified using the information submitted in accordance with ITB Sub-Clause 5.3.

39. Signing and effectiveness of Contract

39.1 On expiry of the ten (10) working day period after display of the best evaluated bidder and upon Clearance by Solicitor, the Employer shall sign a contract with the successful Bidder.

39.2 Failure by the successful Bidder to sign the contract shall constitute sufficient ground for annulment of the contract award and forfeiture of the Bid Security or execution of the bid securing declaration. In that event, the Employer may award the Contract to the next best evaluated Bidder.

Part 3: Section 7. General Conditions of Contract

- 27.1 Within the time stated in the SCC, the Contractor shall submit to the Project Manager for approval a Program showing the general methods, arrangements, order, and timing for all the activities in the Works.
- 27.2 An update of the Program shall be a program showing the actual progress achieved on each activity and the effect of the progress achieved on the timing of the remaining work, including any changes to the sequence of the activities.
- 27.3 The Contractor shall submit to the Project Manager for approval an updated Program at intervals no longer than the period stated in the SCC. If the Contractor does not submit an updated Program within this period, the Project Manager may withhold the amount stated in the SCC from the next payment certificate and continue to withhold this amount until the next payment after the date on which the overdue Program has been submitted.
- 27.4 The Project Manager's approval of the Program shall not alter the Contractor's obligations. The Contractor may revise the Program and submit it to the Project Manager again at any time. A revised Program shall show the effect of Variations and Compensation Events.
- 28. Extension of the Intended Completion Date**
- 28.1 The Project Manager shall extend the Intended Completion Date if a Compensation Event occurs or a Variation is issued which makes it impossible for Completion to be achieved by the Intended Completion Date without the Contractor taking steps to accelerate the remaining work, which would cause the Contractor to incur additional cost.
- 28.2 The Project Manager shall decide whether and by how much to extend the Intended Completion Date within 21 days of the Contractor asking the Project Manager for a decision upon the effect of a Compensation Event or Variation and submitting full supporting information. If the Contractor has failed to give early warning of a delay or has failed to cooperate in dealing with a delay, the delay by this failure shall not be considered in assessing the new Intended Completion Date.
- 29. Acceleration**
- 29.1 When the Employer wants the Contractor to finish before the Intended Completion Date, the Project Manager will obtain priced proposals for achieving the necessary acceleration from the Contractor. If the Employer accepts these proposals, the Intended Completion Date will be adjusted accordingly and confirmed by both the Employer and the Contractor.
- 29.2 If the Contractor's priced proposals for acceleration are accepted by the Employer, they are incorporated in the Contract Price and treated as a Variation.
- 30. Delays Ordered by the Project Manager**
- 30.1 The Project Manager may instruct the Contractor to delay the start or progress of any activity within the Works.
- 31. Management Meetings**
- 31.1 Either the Project Manager or the Contractor may require the other to attend a management meeting. The business of a management meeting shall be to review the plans for remaining work and to deal with matters raised in accordance with the early warning procedure detailed in GCC 32.

Part 3: Section 7. General Conditions of Contract

31.2 The Project Manager shall record the business of management meetings and provide copies of the record to those attending the meeting and to the Employer. The responsibility of the parties for actions to be taken shall be decided by the Project Manager either at the management meeting or after the management meeting and stated in writing to all who attended the meeting.

32. Early Warning

32.1 The Contractor shall warn the Project Manager at the earliest opportunity of specific likely future events or circumstances that may adversely affect the quality of the work, increase the Contract Price or delay the execution of the Works. The Project Manager may require the Contractor to provide an estimate of the expected effect of the future event or circumstance on the Contract Price and Completion Date. The estimate shall be provided by the Contractor as soon as reasonably possible.

32.2 The Contractor shall cooperate with the Project Manager in making and considering proposals for how the effect of such an event or circumstance can be avoided or reduced by anyone involved in the work and in carrying out any resulting instruction of the Project Manager.

C. Quality Control

33. Identifying Defects

33.1 The Project Manager shall check the Contractor's work and notify the Contractor of any Defects that are found. Such checking shall not affect the Contractor's responsibilities. The Project Manager may instruct the Contractor to search for a Defect and to uncover and test any work that the Project Manager considers may have a Defect.

34. Tests

34.1 If the Project Manager instructs the Contractor to carry out a test not specified in the Specification to check whether any work has a Defect and the test shows that it does, the Contractor shall pay for the test and any samples. If there is no Defect, the test shall be a Compensation Event.

35. Correction of Defects

35.1 The Project Manager shall give notice to the Contractor of any Defects before the end of the Defects Liability Period, specified in the SCC. The Defects Liability Period shall be extended for as long as Defects remain to be corrected.

35.2 Every time notice of a Defect is given, the Contractor shall correct the notified Defect within the length of time specified by the Project Manager's notice.

36. Uncorrected Defects

36.1 If the Contractor has not corrected a Defect within the time specified in the Project Manager's notice, the Project Manager will assess the cost of having the Defect corrected, and the Contractor will pay this amount.

D. Cost Control

37. Bill of Quantities or Activity Schedule

Option 1: Admeasurement Contracts - Bill of Quantities

Part 3: Section 7. General Conditions of Contract

- 37.1 The Bill of Quantities shall contain items for the construction, installation, testing, and commissioning work to be done by the Contractor.
- 37.2 The Bill of Quantities is used to calculate the Contract Price. The Contractor is paid for the quantity of the work done at the rate in the Bill of Quantities for each item.

Option 2: Lump Sum Contracts – Activity Schedule

- 37.1 The Contractor shall provide updated Activity Schedules within 14 days of being instructed to by the Project Manager. The activities on the Activity Schedule shall be coordinated with the activities on the Program.
- 37.2 The Contractor shall show delivery of Materials to the Site separately on the Activity Schedule if payment for Materials on Site shall be made separately.

38. Changes in the Bill of Quantities or Activity Schedule

Option 1: Admeasurement Contracts – Changes in the Bill of Quantities

- 38.1 If the final quantity of the work done differs from the quantity in the Bill of Quantities for the particular item by more than 25 percent, provided the change exceeds one percent (1%) of the Initial Contract Price, the Project Manager shall adjust the rate to allow for the change.
- 38.2 The Project Manager shall not adjust rates from changes in quantities if thereby the Initial Contract Price is exceeded by more than 15 percent, except with the prior approval of the Employer.
- 38.3 If requested by the Project Manager, the Contractor shall provide the Project Manager with a detailed cost breakdown of any rate in the Bill of Quantities.

Option 2: Lump Sum Contracts – Changes in the Activity Schedule

- 38.1 The Activity Schedule shall be amended by the Contractor to accommodate changes of Program or method of working made at the Contractor's own discretion. Prices in the Activity Schedule shall not be altered when the Contractor makes such changes to the Activity Schedule.

39. Variations

Option 1: Admeasurement Contracts – Variations

- 39.1 All Variations shall be included in updated Programs produced by the Contractor.

Option 2: Lump Sum Contracts - Variations

- 39.1 All Variations shall be included in updated Programs and Activity Schedules produced by the Contractor.

40. Payments for Variations

Option 1: Admeasurement Contracts – Payment for Variations

- 40.1 The Contractor shall provide the Project Manager with a quotation for carrying out the Variation when requested to do so by the Project Manager. The Project Manager shall assess the quotation, which shall be given within seven days of the request or within any longer period stated by the Project Manager and before the Variation is ordered.

Part 3: Section 7. General Conditions of Contract

- 40.2 If the work in the Variation corresponds with an item description in the Bill of Quantities and if, in the opinion of the Project Manager, the quantity of work above the limit stated in Sub-Clause 38.1 or the timing of its execution do not cause the cost per unit of quantity to change, the rate in the Bill of Quantities shall be used to calculate the value of the Variation. If the cost per unit of quantity changes, or if the nature or timing of the work in the Variation does not correspond with items in the Bill of Quantities, the quotation by the Contractor shall be in the form of new rates for the relevant items of work.
- 40.3 If the Contractor's quotation is unreasonable, the Project Manager may order the Variation and make a change to the Contract Price, which shall be based on the Project Manager's own forecast of the effects of the Variation on the Contractor's costs.
- 40.4 If the Project Manager decides that the urgency of varying the work would prevent a quotation being given and considered without delaying the work, no quotation shall be given and the Variation shall be treated as a Compensation Event.
- 40.5 The Contractor shall not be entitled to additional payment for costs that could have been avoided by giving early warning.

Option 2: Lump Sum Contracts – Payment for Variations

- 40.1 The Contractor shall provide the Project Manager with a quotation for carrying out the Variation when requested to do so by the Project Manager. The Project Manager shall assess the quotation, which shall be given within seven days of the request or within any longer period stated by the Project Manager and before the Variation is ordered.
- 40.2 If the Contractor's quotation is unreasonable, the Project Manager may order the Variation and make a change to the Contract Price, which shall be based on the Project Manager's own forecast of the effects of the Variation on the Contractor's costs.
- 40.3 If the Project Manager decides that the urgency of varying the work would prevent a quotation being given and considered without delaying the work, no quotation shall be given and the Variation shall be treated as a Compensation Event.
- 40.4 The Contractor shall not be entitled to additional payment for costs that could have been avoided by giving early warning.

42. Payment Certificates

- 42.1 The Contractor shall submit to the Project Manager statements of the estimated value of the work executed less the cumulative amount certified previously. Unless otherwise specified in the SCC, such statements shall be submitted monthly.
- 42.2 The Project Manager shall check the Contractor's statement and certify the amount to be paid to the Contractor.
- 42.3 The value of work executed shall be determined by the Project Manager.
- 42.4 The value of work executed shall comprise the value of:
- (a) the quantities of the items in the Bill of Quantities completed for Admeasurement Contracts; or
 - (b) completed (fully or partially) activities in the Activity Schedule for Lump Sum contract activities.

Part 3: Section 7. General Conditions of Contract

- 42.5 The value of work executed shall include the valuation of Variations and Compensation Events.
- 42.6 The Project Manager may exclude any item certified in a previous certificate or reduce the proportion of any item previously certified in any certificate in the light of later information.

43. Payments

- 43.1 Payments shall be adjusted for deductions for advance payments and retention. The Employer shall pay the Contractor the amounts certified by the Project Manager within 30 days of the date of each certificate. If the Employer makes a late payment, the Contractor shall be paid interest on the late payment in the next payment. Interest shall be calculated from the date by which the payment should have been made up to the date when the late payment is made at the prevailing rate of interest for commercial borrowing for each of the currencies in which payments are made.
- 43.2 If an amount certified is increased in a later certificate or as a result of an award by the Adjudicator or an Arbitrator, the Contractor shall be paid interest upon the delayed payment as set out in this clause. Interest shall be calculated from the date upon which the increased amount would have been certified in the absence of dispute.
- 43.3 Unless otherwise stated, all payments and deductions will be paid or charged in the proportions of currencies comprising the Contract Price.
- 43.4 Items of the Works for which no rate or price has been entered in will not be paid for by the Employer and shall be deemed covered by other rates and prices in the Contract.

44. Compensation Events

- 44.1 The following shall be Compensation Events:
- (a) The Employer does not give access to a part of the Site by the Site Possession Date stated in the SCC.
 - (b) The Employer modifies the Schedule of Other Contractors in a way that affects the work of the Contractor under the Contract.
 - (c) The Project Manager orders a delay or does not issue Drawings, Specifications, or instructions required for execution of the Works on time.
 - (d) The Project Manager instructs the Contractor to uncover or to carry out additional tests upon work, which is then found to have no Defects.
 - (e) The Project Manager unreasonably does not approve a subcontract to be let.
 - (f) Ground conditions are substantially more adverse than could reasonably have been assumed before signing of the Agreement from the information issued to bidders (including the Site Investigation Reports), from information available publicly and from a visual inspection of the Site.
 - (g) The Project Manager gives an instruction for dealing with an unforeseen condition, caused by the Employer, or additional work required for safety or other reasons.
 - (h) Other contractors, public authorities, utilities, or the Employer does not work

Part 3: Section 7. General Conditions of Contract

within the dates and other constraints stated in the Contract, and they cause delay or extra cost to the Contractor.

- (i) The advance payment is delayed.
- (j) The effects on the Contractor of any of the Employer's Risks.
- (k) The Project Manager unreasonably delays issuing a Certificate of Completion.
- (l) Other Compensation Events described in the SCC or determined by the Project Manager shall apply.

44.2 If a Compensation Event would cause additional cost or would prevent the work being completed before the Intended Completion Date, the Contract Price shall be increased and/or the Intended Completion Date shall be extended. The Project Manager shall decide whether and by how much the Contract Price shall be increased and whether and by how much the Intended Completion Date shall be extended.

44.3 As soon as information demonstrating the effect of each Compensation Event upon the Contractor's forecast cost has been provided by the Contractor, it shall be assessed by the Project Manager, and the Contract Price shall be adjusted accordingly. If the Contractor's forecast is deemed unreasonable, the Project Manager shall adjust the Contract Price based on the Project Manager's own forecast. The Project Manager will assume that the Contractor will react competently and promptly to the event.

44.4 The Contractor shall not be entitled to compensation to the extent that the Employer's interests are adversely affected by the Contractor's not having given early warning or not having cooperated with the Project Manager.

45. Tax

45.1 The Project Manager shall adjust the Contract Price if taxes, duties, and other levies are changed between the date 28 days before the submission of bids for the Contract and the date of the last Completion certificate. The adjustment shall be the change in the amount of tax payable by the Contractor, provided such changes are not already reflected in the Contract Price or are a result of Clause 47.

46. Currencies

46.1 Where payments are made in currencies other than Uganda Shillings, the exchange rates used for calculating the amounts to be paid shall be the exchange rates stated in the Contractor's Bid.

47. Price Adjustment

47.1 Prices payable to the Provider, as stated in the Contract, shall be subject to adjustment during performance of the Contract to reflect changes in the cost of labour and material components in accordance with the formula:

$$\Delta P = P_0 \left(a + b \frac{L_1}{L_0} + c \frac{M_1}{M_0} \right) - P_0$$

in which:

ΔP = adjustment amount payable to the Provider.

Part 3: Section 7. General Conditions of Contract

- P_0 = Contract Price (base price).
a = fixed element representing profits and overheads included in the Contract Price and generally in the range of five (5) to fifteen (15) percent.
b = estimated percentage of labour component in the Contract Price.
c = estimated percentage of material component in the Contract Price.
 L_0, L_1 = labour indices applicable to the appropriate industry in the country of origin on the base date and date for adjustment, respectively.
 M_0, M_1 = material indices for the major raw material on the base date and date for adjustment, respectively, in the country of origin.

The coefficients a, b, and c shall be specified by the procuring and disposing entity in the bidding documents. The sum of the three coefficients should be one (1) in every application of the formula.

The Bidder shall indicate the source of the indices and the base date indices in his bid.

Base date = thirty (30) days prior to the deadline for submission of the bids.

Date of adjustment = _____ weeks prior to date of shipment (representing the mid-point of the period of manufacture).

The above price adjustment formula shall be invoked by either party subject to the following further conditions:

- (a) Price adjustment will be applied only if the resulting increase or decrease is more than ____ percent of the Contract Price.
[Two (2) percent would be an acceptable percentage.]
- (b) No price adjustment shall be allowed beyond the original delivery dates unless specifically stated in the extension letter. As a rule, no price adjustment shall be allowed for periods of delay for which the Provider is entirely responsible. The procuring and disposing entity will however be entitled to any decrease in the prices of the supplies and services subject to adjustment.
- (c) The total adjustment under this clause shall be subject to a ceiling of plus or minus ____ percent of the Contract Price.
[Ten (10) percent would be an acceptable percentage.]
- (d) If the currency in which the Contract Price P_0 is expressed is different from the currency of origin of the labour and material indices, a correction factor will be applied to avoid incorrect adjustments of the Contract Price. The correction factor shall correspond to the ratio of exchange rates between the two currencies on the base date and the date for adjustment as defined above.

47.2 No price adjustment shall be payable on the portion of the Contract Price paid to the Provider as advance payment.

47.3 If the value of the index is changed after it has been used in a calculation, the calculation shall be corrected and an adjustment made in the next payment certificate. The index value shall be deemed to take account of all changes in cost due to fluctuations in costs.

48. Retention

48.1 If so stated in the SCC, the Employer shall retain from each payment due to the

Part 3: Section 7. General Conditions of Contract

Contractor the proportion stated in the SCC until Completion of the whole of the Works.

- 48.2 On completion of the whole of the Works, half the total amount retained shall be repaid to the Contractor and half when the Defects Liability Period has passed and the Project Manager has certified that all Defects notified by the Project Manager to the Contractor before the end of this period have been corrected.
- 48.3 On completion of the whole Works, the Contractor may substitute retention money with an “on demand” Bank guarantee.

49. Liquidated Damages

- 49.1 If so stated in the SCC, the Contractor shall pay liquidated damages to the Employer at the rate per day stated in the SCC for each day that the Completion Date is later than the Intended Completion Date. The total amount of liquidated damages shall not exceed the amount defined in the SCC. The Employer may deduct liquidated damages from payments due to the Contractor. Payment of liquidated damages shall not affect the Contractor’s liabilities.
- 49.2 If the Intended Completion Date is extended after liquidated damages have been paid, the Project Manager shall correct any overpayment of liquidated damages by the Contractor by adjusting the next payment certificate. The Contractor shall be paid interest on the overpayment, calculated from the date of payment to the date of repayment, at the rates specified in Sub-Clause 43.1.

50. Bonus

- 50.1 If so stated in the SCC, the Contractor shall be paid a Bonus calculated at the rate per working day stated in the SCC for each day (less any days for which the Contractor is paid for acceleration) that the Completion is earlier than the Intended Completion Date. The Completion Date shall be certified in accordance with GCC 55.1.

51. Advance Payment

- 51.1 If so stated in the SCC, the Employer shall make advance payment to the Contractor of the amounts stated in the SCC within the period stated in the SCC, against provision by the Contractor of an on demand Bank Security in a form and by a bank acceptable to the Employer in amounts and currencies equal to the advance payment. The Guarantee shall remain effective until the advance payment has been repaid, but the amount of the Guarantee shall be progressively reduced by the amounts repaid by the Contractor. Interest will not be charged on the advance payment.
- 51.2 The Contractor is to use the advance payment only to pay for Equipment, Plant, Materials, and mobilisation expenses required specifically for execution of the Contract. The Contractor shall demonstrate that advance payment has been used in this way by supplying copies of invoices or other documents to the Project Manager.
- 51.3 The advance payment shall be repaid by deducting proportionate amounts from payments otherwise due to the Contractor, as specified in the SCC, following the schedule of completed percentages of the Works on a payment basis. No account shall be taken of the advance payment or its repayment in assessing valuations of work done, Variations, price adjustments, Compensation Events, Bonuses, or

Part 3: Section 7. General Conditions of Contract

Liquidated Damages.

52. Performance Security

- 52.1 If so stated in the SCC, the Contractor shall, within twenty-one (21) days of signing the contract, provide a Performance Security for the due performance of the Contract. The Performance Security shall be in the amount specified in the SCC and shall be denominated in the types and proportions of the currencies in which the Contract Price is payable.
- 52.2 The proceeds of the Performance Security shall be payable to the Employer as compensation for any loss resulting from the Contractor's failure to complete its obligations under the Contract.
- 52.3 The Performance Security shall be in one of the forms stipulated by the Employer in the SCC, or in another form acceptable to the Employer and shall be issued by a bank or surety acceptable to the Employer.
- 52.4 The Performance Security shall be valid until a date 28 days from the date of issue of the Certificate of Completion in the case of a Bank Guarantee.

53. Dayworks

- 53.1 If applicable, the Dayworks rates in the Contractor's Bid shall be used for small additional amounts of work only when the Project Manager has given written instructions in advance for additional work to be paid for in that way.
- 53.2 All work to be paid for as Dayworks shall be recorded by the Contractor on forms approved by the Project Manager. Each completed form shall be verified and signed by the Project Manager within two days of the work being done.
- 53.3 The Contractor shall be paid for Dayworks subject to obtaining signed Dayworks forms.

54. Cost of Repairs

- 54.1 Loss or damage to the Works or Materials to be incorporated in the Works between the Start Date and the end of the Defects Correction periods shall be remedied by the Contractor at the Contractor's cost if the loss or damage arises from the Contractor's acts or omissions.

E. Finishing the Contract

55. Completion

- 55.1 The Contractor shall request the Project Manager to issue a certificate of Completion of the Works, and the Project Manager will do so upon deciding that the work is completed.

56. Taking Over

- 56.1 The Employer shall take over the Site and the Works within seven days of the Project Manager's issuing a certificate of Completion.

57. Final Account

- 57.1 The Contractor shall supply the Project Manager with a detailed account of the total amount that the Contractor considers payable under the Contract before the end of the Defects Liability Period. The Project Manager shall issue a Defects Liability Certificate and certify any final payment that is due to the Contractor within 56

Part 3: Section 7. General Conditions of Contract

days of receiving the Contractor's account if it is correct and complete. If it is not, the Project Manager shall issue within 56 days a schedule that states the scope of the corrections or additions that are necessary. If the Final Account is still unsatisfactory after it has been resubmitted, the Project Manager shall decide on the amount payable to the Contractor and issue a payment certificate.

58. Operating and Maintenance Manuals

- 58.1 If "as built" Drawings and/or operating and maintenance manuals are required, the Contractor shall supply them by the dates stated in the SCC.
- 58.2 If the Contractor does not supply the Drawings and/or manuals by the dates stated in the SCC, or they do not receive the Project Manager's approval, the Project Manager shall withhold the amount stated in the SCC from payments due to the Contractor.

59. Termination

- 59.1 The Employer or the Contractor may terminate the Contract if the other party causes a fundamental breach of the Contract.
- 59.2 Fundamental breaches of Contract shall include, but shall not be limited to, the following:
 - (a) the Contractor stops work for 28 days when no stoppage of work is shown on the current Program and the stoppage has not been authorised by the Project Manager;
 - (b) the Project Manager instructs the Contractor to delay the progress of the Works, and the instruction is not withdrawn within 28 days;
 - (c) the Employer or the Contractor is made bankrupt or goes into liquidation other than for a reconstruction or amalgamation;
 - (d) a payment certified by the Project Manager is not paid by the Employer to the Contractor within 84 days of the date of the Project Manager's certificate;
 - (e) the Project Manager gives Notice that failure to correct a particular Defect is a fundamental breach of Contract and the Contractor fails to correct it within a reasonable period of time determined by the Project Manager;
 - (f) the Contractor does not maintain a Security, which is required; and
 - (g) the rate of progress of the Works at any time during the period of the Contract is such that the completion of the Works will, as measured against the current Program, be delayed by the number of days for which the maximum amount of liquidated damages can be imposed.
 - (h) if the Contractor in the judgement of the Employer has engaged in corrupt, fraudulent, collusive or coercive practices in competing for or in the executing the contract.

For the purposes of this paragraph:

- (a) "corrupt practice" means the offering, giving, receiving, or soliciting, directly or indirectly, of anything of value, to influence the action of a public official in the procurement process or in contract execution; and
- (b) "fraudulent practice" is any act or omission, including a misrepresentation, that knowingly or recklessly misleads, or attempts to mislead, a party to

Part 3: Section 7. General Conditions of Contract

obtain a financial or other benefit or to avoid an obligation;

- (c) “collusive practice” is an arrangement between two or more parties designed to achieve an improper purpose, including to influence improperly the actions of another party;
- (d) “coercive practice” is impairing or harming, or threatening to impair or harm, directly or indirectly, any party or the property of the party to influence improperly the actions of a party;

59.3 When either party to the Contract gives notice of a breach of Contract to the Project Manager for a cause other than those listed under Sub-Clause 59.2 above, the Project Manager shall decide whether the breach is fundamental or not.

59.4 Notwithstanding the above, the Employer may terminate the Contract for convenience.

59.5 If the Contract is terminated, the Contractor shall stop work immediately, make the Site safe and secure, and leave the Site as soon as reasonably possible.

60. Payment upon Termination

60.1 If the Contract is terminated because of a fundamental breach of Contract by the Contractor, the Project Manager shall issue a certificate for the value of the work done and Materials ordered less advance payments received up to the date of the issue of the certificate and less the percentage to apply to the value of the work not completed, as indicated in the SCC. Additional Liquidated Damages shall not apply. If the total amount due to the Employer exceeds any payment due to the Contractor, the difference shall be a debt payable to the Employer.

60.2 If the Contract is terminated for the Employer’s convenience or because of a fundamental breach of Contract by the Employer, the Project Manager shall issue a certificate for the value of the work done, Materials ordered, the reasonable cost of removal of Equipment, repatriation of the Contractor’s personnel employed solely on the Works, and the Contractor’s costs of protecting and securing the Works, and less advance payments received up to the date of the certificate.

61. Property

61.1 All Materials on the Site, Plant, Equipment, Temporary Works, and Works shall be deemed to be the property of the Employer if the Contract is terminated due to the Contractor’s default.

62. Release from Performance

62.1 If the Contract is frustrated by the outbreak of war or by any other event entirely outside the control of either the Employer or the Contractor, the Project Manager shall certify that the Contract has been frustrated. The Contractor shall make the Site safe and stop work as quickly as possible after receiving this certificate and shall be paid for all work carried out before receiving it and for any work carried out afterwards to which a commitment was made.
